## INTRODUCTION

### Mission and Purpose

As a two-year, university-parallel, church related college, Andrew exists to provide students a strong start to their pursuit of a higher education credential. Andrew specializes in the education of freshmen and sophomores. Andrew students enjoy the advantages of a small, residential campus. Students are afforded the opportunity to develop and demonstrate, in the freshman and sophomore years, participatory and leadership skills that many times would be delayed at larger senior institutions. As a United Methodist Church related institution, the faculty and staff are dedicated to the spiritual and intellectual development of students.

### Mission Statement

Andrew College is a small, residential, two-year college related to The United Methodist Church. Its mission is to provide an academically challenging liberal arts curriculum within a nurturing community.

## Historical Highlights

The Andrew College charter is the second oldest charter in the United States for giving an educational institution the right to confer degrees upon women. The college opened in 1854 as a four-year college known as Andrew Female College. It was named in honor of Bishop James O. Andrew, who was responsible for the founding of the Methodist Episcopal Church, South. In 1856 Bishop Andrew came to Cuthbert to dedicate the school to “the service of God.”

During the period of the Civil War, classes were held in town and the College buildings and facilities were used by the government of the Confederacy as Hood Hospital. In 1866 the school included in its curriculum a course in physical training, the first such course to be required of women in the South. Then, in 1892, the existing Andrew Female College buildings burned; however, funds were raised immediately by the people of Cuthbert, and “Old Main,” the present administration building, was constructed. Warren Bush Hall, the first classroom building, was constructed in 1900 and Cuthbert Hall was constructed in 1912, thereby joining “Old Main” and Warren Bush into one unit. These facilities are currently in the midst of a multi-year renovation.

In 1917, Andrew College became a two-year college. Because it was still offering preparatory programs, it remained a member of the Southern Association of Secondary Schools. Andrew remained a college serving only women until 1956, when it became coeducational.

A period of expansion began in 1948 with the construction of the original Pitts Library. Patterson Hall was built in 1961, Rhodes Hall in 1963, and the Parker Physical Education Building in 1966. The year of 1967 brought construction of the new Pitts Library, Mitchell Hall, and the remodeling of the original library into the Suarez Fine Arts Building. In January of 1984, The Don Abbott Turner Dining Hall opened, and in 1985, the Charlotte and Idus Rhodes Science and Computer Center was completed. In September 1986, the Jinks Physical Education Complex was opened. A new three-story residence hall, the Fort Building, was completed in 1999 and the Phyllis and Jack Jones Chapel in 2001. In 2007, the intramural field was dedicated and renamed to Crispin and Jimmy Gilbert Field in honor of their longtime service to Andrew College.

## STUDENT LEARNING OUTCOMES

Andrew College offers three associate degrees: Associate of Arts, Associate of Music, and Associate of Science. The curriculum offered at Andrew parallels the general education requirements offered by institutions of the University System of Georgia. Andrew College emphasizes the following three Competency Areas (CA) within its general liberal arts curriculum:

1. Communication Skills
2. Critical Thinking Skills
3. Cultural Awareness and Appreciation

Each degree program has focused on specific program level student learning outcomes (PLOs). Assessments to gauge the effectiveness of the program in achieving these outcomes are embedded within specific courses required within the curriculum. The PLOs and their relationship to specific courses within the curriculum are illustrated for each program by the curriculum map.

The data presented is reflective of multiple assessments taken over the academic year by multiple instructors, and in multiple courses and delivery modes. For more information on specifically online student learning outcomes, please refer to the Online Education Report within this Fact Book.

## STUDENT SUCCESS

### Fall to Spring Retention Rates

**Fall to Spring Retention Rates** are presented as the percentage of a student group enrolled in the fall who return as full time students in the succeeding spring term. Data is reported for FTF (first term freshman) cohorts.

## Fall to Fall Retention Rates

**Fall to Fall Retention Rate** is defined as the percentage of first-time freshman students enrolled in a fall term at Andrew College and who continue enrollment at Andrew College in the succeeding fall semesters.

FTF	51%	39%	44%	47%	59%

## Transfer-Out Rates/Graduation Rates

Transfer-out rates are often a better indicator of institutional success than graduation rates for Andrew College since it offers only transferrable associate degrees. The strategic plan 2009-2016 set a threshold of 50% for the sum of transfer-out rates and graduation rates. Both transfer-out rates and graduation rates are measured for first time freshman (FTF) cohorts over a 3-year time period.
