## INTRODUCTION

### Historical Purpose

For more than a century, Andrew College has specialized in the education of freshmen and sophomores. As we forge ahead in advancing our mission through the expansion of our academic programming to offer more advanced degrees, we stand proud of this rich heritage. Andrew students enjoy the advantages of a small, residential campus. Students are afforded the opportunity to develop and demonstrate participatory and leadership skills that many times would be delayed at larger senior institutions. As a United Methodist Church related institution, the faculty and staff are dedicated to the spiritual and intellectual development of students.

### Mission Statement

Andrew College - the United Methodist beacon of educational, spiritual, and cultural uplift to Southwest Georgia since 1854 - prepares students for lives of servant leadership and purpose through higher education that is relevant to its region and beyond.

**Andrew students receive personal attention from professors who encourage them to discover their full academic potential.**

### Values

Support – Concern for academic and personal development

Integrity – Accountability and civility in discourse and behavior

Resilience – Flexibility and grace through challenges

Growth – Meeting students where they are and facilitating personal and professional progress

Service – Awareness of individual gifts to be used in both local and global communities

## Philosophy

In keeping with its Christian heritage, Andrew College provides an environment which prepares students for further study at a senior college and enables them to understand themselves as persons of responsibility and potential within the global community. Andrew is not sectarian and its services are open without regard to race, gender, ethnicity, creed, or economic status.

Andrew College seeks to achieve its purpose by providing the following advantages:

- Opportunity for intellectual, social and spiritual growth;
- A professionally-competent faculty dedicated to teaching;
- Individual attention to students at all levels of operation within the college;
- A two-year curriculum that parallels that of four-year colleges and universities;
- A cultural enrichment program which encourages students to appreciate the arts;
- The opportunity to learn leisure time skills which lead to the development of a healthy body;
- Redemption in the basic skills;
- Orientation experiences for successful adjustment to college life;
- Academic advising;
- Challenging programs for the intellectually gifted student;
- A student community committed to the earning of a college education;
- Cultural and academic resources for the community and the churches of the area.

## Historical Highlights

The Andrew College charter is the second oldest charter in the United States for giving an educational institution the right to confer degrees upon women. The college opened in 1854 as a four-year college known as Andrew Female College. It was named in honor of Bishop James O. Andrew, who was responsible for the founding of the Methodist Episcopal Church, South. In 1856 Bishop Andrew came to Cuthbert to dedicate the school to “the service of God.”

During the period of the Civil War, classes were held in town and the College buildings and facilities were used by the government of the Confederacy as Hood Hospital. In 1866 the school included in its curriculum a course in physical training, the first such course to be required of women in the South. Then, in 1892, the existing Andrew Female College buildings burned; however, funds were raised immediately by the people of Cuthbert, and “Old Main,” the present

administration building, was constructed. Warren Bush Hall, the first classroom building, was constructed in 1900 and Cuthbert Hall was constructed in 1912, thereby joining “Old Main” and Warren Bush into one unit. These facilities are currently in the midst of a multi-year renovation.

In 1917, Andrew College became a two-year college. Because it was still offering preparatory programs, it remained a member of the Southern Association of Secondary Schools. Andrew remained a college serving only women until 1956, when it became coeducational.

A period of expansion began in 1948 with the construction of the original Pitts Library. Patterson Hall was built in 1961, Rhodes Hall in 1963, and the Parker Physical Education Building in 1966. The year of 1967 brought construction of the new Pitts Library, Mitchell Hall, and the remodeling of the original library into the Suarez Fine Arts Building. In January of 1984, The Don Abbott Turner Dining Hall opened, and in 1985, the Charlotte and Idus Rhodes Science and Computer Center was completed. In September 1986, the Jinks Physical Education Complex was opened. A new three-story residence hall, the Fort Building, was completed in 1999 and the Phyllis and Jack Jones Chapel in 2001. In 2007, the intramural field was dedicated and renamed to Crispin and Jimmy Gilbert Field in honor of their longtime service to Andrew College.

## STUDENT LEARNING OUTCOMES

Andrew College offers four associate degrees and one bachelor degree: Associate of Arts, Associate Degree in Nursing, Associate of Music, Associate of Science, and the Bachelor of Science. The curriculum offered at Andrew parallels the general education requirements offered by institutions of the University System of Georgia. Each degree program is focused on specific program level student learning outcomes (PLOs). Assessments to gauge the effectiveness of the program in achieving these outcomes are embedded within specific courses required within the curriculum. The College's goal is to maintain a CFI calculation of 3.0 or greater.
